

Best Practices

(I) Title of the practice. Enhance performance in History

1. Objectives of the practice

- Attract talented students to History course
- Encourage History students to pursue higher education in History
- Instill healthy competition amongst students to outperform the other

2. The context

- Admission to History course is declining in general due to the lack of awareness among the students. There is a need to attract students to this art course
- Input to higher education institutes is witnessing lack of talented students and declining trend of enrolment. It is deemed that it is the responsibility of institutions like ours, to prepare and send many talented students to the higher education institutes.

3. The practice

- Prize amount of Rs. 1100 to 2100 is provided to students securing highest marks in each of the year. This would be distributed during the annual college day to boost the pride of the recipient students.
- At the very beginning of the year the students are informed about the incentives provided by the department for best performing students which inculcates a spirit of competitive attitude amongst the students.
- Students are also informed about the various opportunities available after completing the under graduate course in History. The nature of the competitive examinations to be taken is also made clear to them. History course plays important role in most of the competitive exams.

- Question bank is made available to all the students so that every student has the same edge to compete. Learning support is provided by academic counselling by the individual teachers

4. Evidence of success

- Increase in the number of students securing high marks. The following students have secured top position in final result :B.AI, Ku. Suman Banjara 68 (History)B.AII, Ku. Rubi Purohit(History) B.AIII. Increase in the quality of results (number of distinctions, number of first classes, etc.)

5. Problems encountered and resources required

- The practice was initiated in the year 2019-20. Since then the number of high scoring students has been on the rise. The amount is not sufficient to meet the expenditure in the present day due to more number of students scoring high marks.
- It is essential to enhance the amount to atleast Rs. 10.000=00 immediately so that the practice may sustain.
- Students belonging to other course also demanding the same incentive.

(II) Title of the Best Practice - Composting

1. Objective of the practice

Composting is an aerobic method of decomposing organic solid wastes. It can therefore be used to recycle organic material. The process involves decomposition of organic material into a humus-like material known as compost, which is a good fertiliser for plants. Compost returns valuable nutrients to the soil to help maintain soil quality and fertility.

The objective of this activity was to inculcate a healthy practice among the students towards waste management on the Campus.

2. The Context

The idea was initiated by science group students. Most of the students of our college belong to farmer family. This process will help them in practicing their own land.

3. The practice:

This practice is not applied in nearly institute so it will be learning and practical for all. Here are some of the ways our students have been benefitted from this healthy practice:

- This best practice has helped the students to understand how composting enriches soil, helping to retain moisture and suppress plant diseases and pests.
- It has also enabled them understand how composting reduces the need for chemical fertilizer.
- This best practice has created an awareness regarding how composting has encouraged the production of beneficial bacteria and fungi that breaks down organic matter to create humus, a rich nutrient filled material.

4. Evidence of Success:

- The College employees were imparted information to carry out effective 'Solid Waste Management'.
- This activity has encouraged the students to make use of the compost to grow seasonal fruits and vegetables in the backyard.

5. Problem encountered and Resources required:

- Lack of financial support as JBS was not existed.
- Sometimes leafs and garbage were not collected properly.
- Lack of trolley for collection of garbage of all campus.
- Moisture was major problem and permanent employee needed to the regular supervision of composting pit.
