**Clarification on the Mismatch of Admitted Student data-**

The college is situated in OBC populated ground belt so the majority of students are from OBC categories. Hence the actual admitted student number is greater than the reserved seats as per the norms GOI/ State Government and affiliating university.

Most of the students of reserved( OBC) categories are admitted by merits (i.e. general category), while in any other case (like scholarships or any other matter) they are considered as candidate of reserved category.

The admission process is well documented and very carefully processed to avoid any mistake in regards of following reservation rules laid out by GOI/ State Government.
